

Converting Uncompensated Care into Sustainable Revenue!

AI-Powered Disability Advocacy for SSI & SSDI Eligibility.

Hospitals are Losing Money on Care for:

- Uninsured & Low-Income Patients
- Disabled High-Utilization Patients

This Leads to:

- Significant Uncompensated Care Costs
- Bad Debt
- Readmission Penalties

Introducing Disability Advocacy

Our custom AI software analyzes hospital encounters to identify patients eligible for Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI). We provide comprehensive case management to ensure accurate documentation and successful awards.

- ***Immediate Revenue:*** *SSI awards allow hospitals to bill Medicaid immediately in most states.*
- ***Long-Term Benefits:*** *SSDI awards secure future Medicare eligibility for patients.*
- ***Results-Driven:*** *Transform uncompensated care into meaningful revenue sources for your facility.*

Why Choose Us?

- Create a Stable, Insured Payer Mix
- Recover Revenue for Services Provided
- Reduce Financial Risk
- Help Vulnerable Patients Gain Coverage.

HRS Healthcare Reimbursement Services, Inc.
Disability Advocacy

Our Services

Targeted Identification

Use advanced data matching and investigative discovery to find "hidden" SSI candidates who fall outside traditional Medicaid thresholds..

End-to-End Case Management

We handle everything from application preparation and medical record submission to representing patients through the hearing appeal process.

Automated Payer Shift

Successfully approved cases automatically trigger Medicaid activation, converting uninsured patients into a permanent, insured payer mix.

Revenue Recovery

Capture retroactive reimbursement back to the medical onset date and secure predictable revenue for all future admissions.

Zero-Risk Partnership

Our services are entirely contingency-based; we only get paid after your hospital receives reimbursement

Executive Impact

- Reduces bad debt and readmission penalties
- Increases insured encounters and predictable revenue gains
- Strengthens financial performance, particularly in non-expansion states
